

NEWS BULLETIN – 3

30/08/2026

HIGHLIGHTS OF THE WEEK

National Infrastructure & Business News

1. FDA Action Highlights India's Pharma Quality Standards

The US FDA (United States Food and Drug Administration) has recently taken regulatory action involving Indian pharmaceutical manufacturers, highlighting the importance of strict quality control and Good Manufacturing Practices (GMP). At the same time, Indian companies continue to receive US FDA approvals for medicines, showing the growing importance of regulatory compliance for India's pharmaceutical export industry.

2. Railway Expansion

The Union Cabinet has approved ₹9,450 crore for four railway multitracking projects covering around 410 km across four states. The projects are expected to increase railway capacity, reduce congestion and improve the movement of passengers and freight. The expansion will also strengthen connectivity between important industrial, commercial and economic centres, supporting trade, logistics and overall infrastructure development.

NEWS FROM PRE-ENGINEERING / ROOFING SECTOR

STEEL MARKET HIGHLIGHTS

1. PEB is No Longer Just a Shed

- Factories, data centres, EV Plants, warehouses and renewable-energy infrastructure are creating much larger opportunities.

2. Speed is Becoming the Biggest Selling Point

- The reported 95,110 sq. ft. project completed in 24 hours is a powerful example of how fast steel construction can become.

3. Gujarat is Becoming a PEB & Structural-Steel Hub

- Kheda, Sanand, Vadodara and Ahmedabad are seeing significant investment in steel-building and industrial infrastructure.

4. Data Centres are Emerging as a Major PEB Opportunity

- Data-centre construction is becoming an important new application for prefabricated steel structures.

THE ADVANTAGES ARE:

- Fast Construction • Large Column-Free Spaces • Scalability • Heavy Equipment Loads • Possibility of Future Expansion
- Industry analysis also identifies data centres, warehouses, cold storage, power plants and logistics facilities as important growth areas for PEB.

EVENTS

Preventive Maintenance Training

- Date:** 07 August 2026
- Venue:** Bay 1 Area
- Bansal Roofing Products Ltd. (BRPL) conducted a Preventive Maintenance Training program to develop employees' understanding of:
 - Preventive maintenance practices
 - Timely equipment inspection
 - Identification of potential faults
 - Safe machine operation
 - Proper maintenance procedures
- The session aimed to promote proactive maintenance, reduce unexpected equipment breakdowns, improve machine reliability, and support smooth and efficient production operations.
- The training also reinforced the importance of regular inspection and employee involvement in maintaining a safe and productive workplace.

HIGHLIGHTS OF THE WEEK

3. Indian Stock Market Stages Strong Recovery

The Indian stock market ended significantly higher on August 20, 2026, as investor sentiment improved after a seven-session losing streak. The BSE Sensex surged 628.04 points, or 0.82%, to close at 77,537.72, while the Nifty 50 gained 153.55 points, or 0.64%, to settle at 24,231.85. The recovery was supported by gains in IT and financial stocks and improved global market sentiment.

4. POLITICAL & ECONOMIC HIGHLIGHTS

Union Education Minister Mr. Dharmendra Pradhan has resigned from the cabinet and Mr. Prahlad Joshi took the charge of Education Minister of India. This change is because of prolonged protests by students at Jantar Mantar in Delhi regarding action by the government to stop exam paper leaks.

PROJECT COMPLETION NEWS

Successful Completion of 122-Ton PEB Project

Client: Deepak Nitrite Ltd.

Completion Date: 14 August 2026

Project Weight: Approx. 122,000 kg

Bansal Roofing Products Ltd. has successfully completed a 122-ton Pre-Engineered Building (PEB) project for Deepak Nitrite Ltd. The project involved the design, manufacturing, and supply of Shed-2 (Warehouse-2), comprising:

- Built-up sections
- Cold-formed sections
- Hot-rolled sections
- Hardware
- Roofing sheets
- Cladding sheets
- Accessories
- 88 SQM polycarbonate skylight sheets
- GI weld-mesh fall protection system

The successful completion of this project reflects Bansal Roofing Products Ltd.'s commitment to **quality, engineering excellence, safety, and timely project execution.**

EVENTS

Monsoon Safety Training

- **Date:** 14 August 2026
- **Venue:** Training Room
- Bansal Roofing Products Ltd. (BRPL) conducted a Monsoon Safety Training program focused on creating awareness about monsoon-related workplace hazards.
- **Key Topics Covered**
 - Slips, trips and falls
 - Electrical risks
 - Lightning
 - Wet working areas
 - Safe working practices during rainfall
 - PPE usage
 - Emergency preparedness
 - Safe work procedures
- The training aimed to help prevent accidents and maintain a safe workplace throughout the monsoon season.

INTERNATIONAL NEWS

China Accelerates Green Steel Production

China is increasing its focus on decarbonising the steel industry, with plans to significantly expand scrap collection and processing. The move could accelerate the global shift toward low-carbon and recycled steel, increasing pressure on manufacturers to adopt cleaner production practices.

International Shipping & Logistics Challenges

Global shipping and logistics networks are facing increasing pressure from port congestion and disruptions at major maritime routes. Current shipping through the Strait of Hormuz remains at very low levels, while activity through the Bab el-Mandeb route has also declined. These disruptions can lead to longer delivery times, higher freight and insurance costs, and delays in the movement of raw materials and finished goods. For manufacturing industries, this can affect production schedules and overall supply-chain costs.

PROJECT COMPLETION NEWS

Successful Completion of 65,982 kg PEB Project

Client: SR Composites Pvt. Ltd.

Location: Village Ankhi, Taluka Jambusar, Gujarat

Project Weight: 65,982 kg

Handover Date: 8 July 2026

Bansal Roofing Products Ltd. has successfully completed the supply and installation of a Pre-Engineered Building (PEB) shed for SR Composites Pvt. Ltd.

The project scope covered:

- PEB structure – 65,982 kg
- Erection
- 10 Turbo Ventilators
- Polycarbonate Sheeting
- CCPE Insulated Sheets

The project was formally handed over following joint site inspection and sign-off by **Mr. Ankit Kumawat (SR Composites)** and **Mr. Alok Pandey (Bansal Roofing Products Ltd.)**.

The project marks the successful and timely delivery of the site in complete and satisfactory condition.
